***TITLE I—SALTON SEA
RECLAMATION PROJECT***

***SEC. 101. SALTON SEA RECLAMATION PROJECT AUTHOR-
IZATION.***

(a) IN GENERAL.—The Secretary, in accordance with this section, shall undertake a project to reclaim the Salton Sea, California.

(b) PROJECT REQUIREMENTS.—The Project shall—

(1) reduce and stabilize the overall salinity of the Salton Sea;

(2) stabilize the surface elevation of the Salton Sea;

(3) reclaim, in the long term, healthy fish and wildlife resources and their habitats;

(4) enhance the potential for recreational uses and economic development of the Salton Sea; and

(5) ensure the continued use of the Salton Sea as a reservoir for irrigation drainage.

(c) FEASIBILITY STUDY.—

(1) IN GENERAL.—(A) The Secretary shall promptly initiate a study of the feasibility of various options for meeting the requirements set forth in subsection (b). The purpose of the study shall be to select 1 or more practicable and cost-effective options and to

1 *develop a reclamation plan for the Salton Sea that*
2 *implements the selected options.*

3 *(B)(i) The Secretary shall carry out the feasibil-*
4 *ity study in accordance with a memorandum of un-*
5 *derstanding entered into by the Secretary, the Salton*
6 *Sea Authority, and the Governor of California.*

7 *(ii) The memorandum of understanding shall, at*
8 *a minimum, establish criteria for evaluation and se-*
9 *lection of options under subparagraph (A), including*
10 *criteria for determining the magnitude and prac-*
11 *ticability of costs of construction, operation, and*
12 *maintenance of each option evaluated.*

13 *(2) OPTIONS TO BE CONSIDERED.—Options con-*
14 *sidered in the feasibility study—*

15 *(A) shall consist of—*

16 *(i) use of impoundments to segregate a*
17 *portion of the waters of the Salton Sea in*
18 *1 or more evaporation ponds located in the*
19 *Salton Sea basin;*

20 *(ii) pumping water out of the Salton*
21 *Sea;*

22 *(iii) augmented flows of water into the*
23 *Salton Sea;*

24 *(iv) a combination of the options re-*
25 *ferred to in clauses (i), (ii), and (iii); and*

1 (v) any other economically feasible re-
2 mediation option the Secretary considers
3 appropriate;

4 (B) shall be limited to proven technologies;

9 (ii) is inconsistent with section 104 (b)
10 or (c).

11 (3) *PROJECT DESIGN CALCULATIONS.*—In mak-
12 ing Project design calculations, the Secretary shall
13 apply assumptions regarding water inflows into the
14 Salton Sea Basin that—

15 (A) encourage water conservation;

16 (B) account for transfers of water out of the
17 Salton Sea Basin;

18 (C) are based on the maximum likely reduc-
19 tion in inflows into the Salton Sea Basin; and

20 (D) include the assumption that inflows
21 into the Salton Sea Basin could be reduced to
22 800,000 acre-feet or less per year.

23 (4) *CONSIDERATION OF COSTS.*—In evaluating
24 the feasibility of options, the Secretary shall consider
25 the ability of Federal, tribal, State and local govern-

1 *ment sources and private sources to fund capital con-*
2 *struction costs and annual operation, maintenance,*
3 *energy, and replacement costs. In that consideration,*
4 *the Secretary may apply a cost sharing formula to*
5 *annual operation, maintenance, energy, and replace-*
6 *ment costs that is different than the formula that ap-*
7 *plies to construction costs under subsection (e).*

8 (5) *REPORT AND PLAN.*—Not later than 18
9 *months after commencement of the feasibility study*
10 *under this subsection, the Secretary shall—*

11 (A) *submit to the Committee on Resources*

17 *Sea pursuant to paragraph (1), including a*
18 *cost sharing formula for operation and*
19 *maintenance; and*

21 *struction activities to be carried out under*
22 *subsection (e), that are sufficient to use for*
23 *soliciting bids for those activities, including*

1 *fications and drawings and professional en-*
 2 *gineer cost estimates; and*

3 *(B) complete all environmental compliance*
 4 *and permitting activities required for those con-*
 5 *struction activities.*

6 *(d) CONGRESSIONAL REVIEW AND REVISION OF*
 7 *PLAN.—*

 16 *such recommended changes as the committee con-*

2 *the Project.*

3 (2) *COST SHARING.—The Federal share of the*
4 *costs of construction of the Project shall not exceed 50*
5 *percent of the total cost of that construction.*

6 (3) *COST SHARING AGREEMENT.—The Secretary*
7 *may not initiate construction of the Project unless the*
8 *Secretary, the Governor of California, and the Salton*
9 *Sea Authority enter into an agreement that—*

10 (A) *adopts the cost sharing formula for an-*
11 *ual operation, maintenance, energy, and re-*
12 *placement costs that is included in the reclama-*
13 *tion plan approved by the Committees under*
14 *subsection (d); and*

15 (B) *implements the cost sharing require-*
16 *ment under paragraph (2) of this subsection for*
17 *construction costs.*

18 (4) *LIMITATION ON EXPENDITURE OF FEDERAL*
19 *FUNDS.—No Federal funds may be expended for any*
